951 811 013 0	1440306	1 DF 20 A-3	1R11-831	Scania Bus, Rear Axle

Please speak to your WABCO contact person for further details.

Enhanced product range for air springs

We would also like to inform you of additional replacements in our air spring range.

To ensure that we continued to provide you with the best products for your requirements, we told you in April and September about replacing 13 air spring part numbers.

We are now pleased to be able to offer you the next 8 new air spring variants in a further step.

The table below shows the air springs that have been replaced, as well as the relevant reference numbers. The new WABCO part numbers thus replace the previous variant on a one-for-one basis.

16.11.2009

Overview of changed air springs, November 2009
